## Classic PDF Tools Version 3.10 released

---

### Classic PDF Tools Version 3.10

**March 6, 2007** - Winkel: PDF Tools AG has released Version 3.10 of the Classic PDF Tools. The Classic PDF Tools are available as programming libraries (APIs) and command line shell versions. The tools allow for a wide variety of manipulation of PDF files including merging, splitting, form filling, extracting information, conversion, and optimization.

New features that have been incorporated in Version 3.10 include:

- Additional support for annotations
- Improved form filling processing, e.g. support for the "Euro" sign

In addition, several smaller features have been added to individual tools and any trouble reports received for the previous version have been resolved.

For a detailed list of all changes, please read the [Classic Tools Version 3.10 Release Notes](#).

### We're helping host the 1. PDF/A Conference

The international PDF/A Competence Center, of which PDF Tools is a founding member, is hosting the first international PDF/A Conference in Stuttgart, Germany on March 8-9, 2007. The conference, aimed at users and developers, offers a unique opportunity to learn all about PDF/A from the creation through to digital signatures and more. PDF Tools is also an exhibitor at the PDF/A Conference, so visitors can stop by for a demonstration of our PDF/A compliant tools.

The PDF/A Competence Center is also planning an English language PDF/A Conference in the USA and an English PDF/A Seminar in Europe for later in 2007. Please let us know if you would like to attend, so we can measure how great the interest is.

Visit our website - [PDF/A Tools](#) - to find out more about the most comprehensive line of PDF/A compliant tools available on the market today

## [Visit us at the CeBIT - March 15-21 in Hanover, Germany](#)

As part of our major international contribution to the PDF/A Competence Center and to help promote the benefits of the PDF/A standard, PDF Tools is participating in the PDF/A Pavillion at the CeBIT in Hanover, Germany from March 15 to 21. This is the world's largest electronics trade fair, attracting over 450'000 visitors. Meet us in **Hall 01, Stand L80** all seven days! Roger Reeves and the newest member to our sales team, Andrea Kossig, look forward to greeting you and demonstrating the widest selection of PDF/A-compliant products available today. You can also pre-arrange a personal meeting simply by clicking on the following link:

## [Visit us at the AIIM-OnDemand - April 16-19 in Boston MA](#)

Shortly after the CeBIT our team will be travelling to the USA to meet with as many North American customers as possible at the AIIM-OnDemand Conference and Exhibition, being held this year in Boston. Dr. Hans Bärffuss, Roger Reeves, and Andrea Kossig will be present at two different booths, making it twice as easy to meet us: Booth 3241 (our own booth) and a special PDF/A promotion booth together with Compart (Booth 1865). We hope you will be attending the conference and look forward to meeting you in Boston. Please let us know when you will be dropping by for a visit, and we'll make sure we have some extra time for you.

You can pre-arrange a personal meeting with us at the AIIM simply by clicking on the following link:
